8.20  The 10 Revolutionary Tactics
8.21  First Organic Marriage Campaign
8.22  SEO Strategy
8.23  Influencer & Partnership Outreach
```

8.1 MARKETING PHILOSOPHY

```
TURBOMINDZ MARKETING = "THE WITNESSED ECONOMY"

PRINCIPLE 1: TRANSPARENCY IS THE MARKETING
 ├─── Every trade is public → becomes a story
 ├─── Every dispute is resolved publicly → becomes drama
 ├─── Every transparency report → becomes proof
 ├─── Every marriage → becomes content
 └─── The system markets itself through USE
```

```
PRINCIPLE 2: CHARACTERS ARE THE BRAND
 ├─── No human face. No founder persona.
 ├─── Cosmo, Nova, Stella, Luna are the public identity
 ├─── All social media, all emails, all content = in character
 ├─── The audience relates to CHARACTERS, not a company
 └─── This makes the IP more valuable long-term

PRINCIPLE 3: EDUCATE → TRUST → CONVERT
 ├─── Free art education builds expertise perception
 ├─── Free philosophy content builds community
 ├─── Trust converts to: NFT sales, Patreon, merch, products
 └─── Never hard-sell. Always value-first.

PRINCIPLE 4: CONTENT COMPOUNDS
 ├─── Every NFT = Instagram post + Twitter post + Discord + Patreon
 ├─── Every scene = potential Reel/TikTok + blog + newsletter snippet
 ├─── Every art style = education carousel + quiz + Medium article
 ├─── Content library grows DAILY. Marketing gets easier over time.
 └─── Day 1: 1 piece of content. Day 300: 300+ pieces working for you.

DAILY MARKETING TIME: 30 minutes (within 2-hour block)
 ├─── 10 min: Post to Instagram + Twitter (from DAY command)
 ├─── 5 min: Post to Discord (from DAY command)
 ├─── 5 min: Post to Patreon (from DAY command)
 ├─── 10 min: Engage (comments, follows, welcomes)
 └─── Everything is COPY-PASTE from the DAY command output
```

8.2 THE CHARACTER CONTENT ENGINE

```
ALL PROMOTION IS AI-PRODUCED THROUGH 4 CHARACTERS.
No human face. No human voice. Characters ARE the brand.

CHARACTER → CHANNEL → CONTENT TYPE MAPPING:

COSMO (60% of all posts)
━━━
```

```
STELLA (15% of all posts)
━━━
```

```
LUNA "MYSTERY" (Teasers, pre-TM-050):
──────────────────────────────────────────────────────────────────────────────────────────────
Empty [UNIVERSE DESCRIPTION] with subtle evidence of
recent presence leather notebook left open on surface
pencil nearby mismatched socks footprints violet hair
strand caught on edge mysterious absence atmospheric
claymation stop-motion plasticine Pixar meets Aardman
moody dramatic lighting --ar 9:16 --v 7 --s 400 --q 2
──────────────────────────────────────────────────────────────────────────────────────────────
```

Video Content Pipeline (3 Phases)

```
PHASE 1: FREE ($0) — Weeks 1-8
├─── Tool: CapCut (free) + MJ still images
├─── Format: Ken Burns effect on images + text overlay
├─── Duration: 15-30 seconds
├─── Audio: Royalty-free music (Pixabay, Free Music Archive)
├─── Output: Instagram Reels, TikTok, YouTube Shorts
├─── Production time: 10 min per video
└─── Template: "Quote Reveal" (see Section 8.11)

PHASE 2: LOW-COST ($0-11/mo) — Weeks 9+
├─── Add: ElevenLabs free tier (10K chars/mo)
├─── Character voiceovers:
│    Cosmo: warm, curious, slightly nervous
│    Nova: calm, ancient, knowing
│    Stella: energetic, practical
│    Luna: quiet, measured
├─── Cosmo narrates: "Today I discovered..."
└─── Production time: 15 min per video

PHASE 3: INVESTMENT ($20-30/mo) — When Revenue Allows
├─── Add: Higgsfield ($20/mo) for image-to-video
├─── MJ output → 10-second animated clip
├─── Characters appear to MOVE
├─── Duration: 10-15 seconds
├─── Production time: 20 min per video
└─── Trigger: Revenue consistently >$200/mo
```

8.3 CHANNEL STRATEGY OVERVIEW

```
15 CHANNELS — ORDERED BY LAUNCH PRIORITY

#   CHANNEL         LAUNCH    DAILY TIME  COST   PRIMARY PURPOSE
───  ──────────────────────────  ─────────────  ────────────────────  ──────────
──────────────────────────────────
1   Instagram       Day 4     10 min      $0     Visual showcase
2   Twitter/X       Day 4     8 min       $0     Community + threads
3   Discord         Day 5     5 min       $0     Community hub
4   OpenSea         Day 3     5 min/NFT   $0     NFT sales
5   Ko-fi           Day 6     2 min       $0     Donations + shop
6   Patreon         Day 7     5 min       $0     Membership revenue
7   Website         Week 2    0 min       $0     SEO + email capture
8   Email           Week 2    5 min/wk    $0     Owned audience
9   TikTok          Week 3    5 min       $0     Discovery
10  YouTube         Week 3    5 min       $0     Education + SEO
11  Gumroad         Week 4    2 min       $0     Digital products
```

```
12  Pinterest       Week 4    3 min       $0     Long-tail discovery
13  Printful        Week 5    2 min       $0     Merchandise
14  Medium          Week 6    30 min/wk   $0     SEO articles
15  ProductHunt     Week 9-12 Launch only $0     Launch visibility

TOTAL DAILY: ~30 min (within 2-hour production block)
TOTAL WEEKLY: ~3.5 hrs + 35 min (newsletter + Medium article)
TOTAL COST: $0
```

8.4 CHANNEL 1: INSTAGRAM

Setup

```
ACCOUNT:
├─── Handle: @turbomindz
├─── Type: Professional → Creator
├─── Category: Artist
├─── Profile pic: Cosmo character reference
├─── Bio:
│    Where Wisdom Meets Canvas 🎨

```

Daily Post Template (from DAY command)

The DAY command generates the complete CAPTION_FULL. Simply:

1. Upload MJ image
2. Paste CAPTION_FULL from DAY output
3. Add location: "{U_NAME}"
4. Publish

Story Templates

```
COSMO STORY (Daily — takes 3 min):
[Image: Cosmo selfie MJ prompt]
Text overlay:
"Day {X} of the Odyssey 💛
Today I visited {U_NAME}.
{1-sentence reaction}
New scene dropping at {time} ⬇️"
Sticker: Poll or Quiz

NOVA STORY (2×/week):
[Image: Nova teaching pose]
Text overlay:
"🔮 Nova's Pattern of the Day:
'{Short quote}'
The pattern is: {1 sentence}
Swipe up for today's scene →"

STELLA STORY (2×/week):
[Image: Stella community pose]
```

```
Text overlay:
"🌟 Stella here.
{Community update / challenge}
The Village is growing.
Are you in it yet?
Link in bio →"

LUNA STORY (After TM-050 — 1×/week):
[Image: Luna mystery scene]
Text overlay:
"🌙
{Cryptic 1-line observation}
Look closer."
```

Reel Template: "Quote Reveal" (15 seconds)

```
PRODUCTION (10 min in CapCut free):
1. Import today's MJ scene image
2. Apply slow Ken Burns zoom (0-3s)
3. Add text: Quote word-by-word animation (3-8s)
4. Add text: "— {Author}" fade in (8-10s)
5. Add text: "Scene {X} of 888 | @turbomindz" (10-13s)
6. Add text: "Link in bio" (13-15s)
7. Add music: Royalty-free piano (Pixabay.com)
8. Export 9:16 vertical

CAPTION:
"{Quote}" — {Author}
Scene {X} of 888.
{PLOT_TWIST first sentence}

```

Highlight Covers (9 — one per theme)

```
Create 9 circular highlight icons:
├── 🏛️ Classical (Deep Blue)
├── 💡 Enlightenment (Gold)
```

```
├─── 💜 Existentialism (Purple)
├─── 🌿 Mysticism (Emerald)
├─── 🧡 Eastern (Orange)
├─── 🔬 Science (Silver Blue)
├─── 🌹 Poetry (Rose)
├─── ❤️ Civic (Red)
└─── 🧠 Psychology (Teal)

Save scene stories to matching highlights.
```

8.5 CHANNEL 2: TWITTER/X

Setup

```
ACCOUNT:
├─── Handle: @turbomindz
├─── Profile pic: Cosmo character
├─── Header: 1500×500 best scene panoramic crop
├─── Bio:
│    Where Wisdom Meets Canvas 🎨
│    888 AI philosophical art NFTs | One continuous story
│    4 characters × 39 universes × 9 themes
│    💍 Marry digital art to physical works
│    ⬇️ Join the Odyssey
├─── Location: "39 Universes"
├─── Website: [Discord link until site exists]
└─── Pin: Launch thread (see below)
```

Pinned Launch Thread (copy-paste)

```
1/7: 🎨 TURBOMINDZ IS LIVE

888 philosophical art scenes. One continuous story.
4 claymation characters traveling through 39 universes.

Every scene hides 5 secrets.
Every quote is ancient wisdom.
Every NFT is a chapter.

This is not a collection. It's an Odyssey. 🧵👇

2/7: Meet the travelers:
🚀 Cosmo — the curious astronaut
🔮 Nova — the alien who sees patterns
🌟 Stella — the weaver who builds community
🌙 Luna — the one who was already there

3/7: The 9 Themes:
🏛️ Classical Foundations
💡 Enlightenment & Reason
💜 Existentialism & Modern
🌿 Mysticism & Esoterica
🧡 Eastern Wisdom
🔬 Science & Modernity
🌹 Poetry & Aesthetics
❤️ Civic & Social
🧠 Psychology & Mind
```

```
4/7: What makes this different:
• 888 scenes = ONE story
• Each quote: verified public domain
• Each scene: 5 easter eggs
• Physical art "marries" your NFT
• All trades happen in PUBLIC
• Community Elders resolve disputes
• Polygon (near-zero fees)

5/7: The Marriage System 💍
Buy NFT → Create physical art → Verify → Bound forever
The NFT is the soul.
The physical art is the body.
Together, they become something greater.

6/7: Scene 1 is live.
"Know thyself." — Temple of Apollo, Delphi
Cosmo reads it as a command to GO.
887 scenes later, same words mean the opposite.

7/7: Collect the Odyssey:
🔗 OpenSea: [link]
💬 Discord: [link]
📸 Instagram: @turbomindz
New scene every day. The story has already started.
Create. Connect. Trade Fair. 🎨
```

Daily Tweet Templates

```
TEMPLATE A: NFT ANNOUNCEMENT (from DAY command)
🎨 TM-{ID}: {SCENE_TITLE}
"{QUOTE}" — {AUTHOR}
{PLOT_TWIST sentence 1}
🚀 Cosmo: "{COSMO_DLG}"
Collect → [link]
Scene {X} of 888.
#Turbomindz #PhilosophicalArt #{ThemeHashtag}

TEMPLATE B: ENGAGEMENT (text only, rotate daily)
Option 1 — Quote + Question:
"{Quote}" — {Author}
{INSIGHT sentence 1}
What does this mean to you? 👇

Option 2 — Character voice:
🚀 Cosmo here.
{2-sentence observation}
Has this ever happened to you?

Option 3 — Easter egg tease:
👀 In today's scene (TM-{ID}),
there are 5 things hidden.
One won't make sense for 200 scenes.
Can you find them? #LookCloser
```

```
TEMPLATE C: WEEKLY THREAD (Sundays)
1/ 🎨 TURBOMINDZ WEEK {X} RECAP 🧵
Scenes TM-{start} → TM-{end}
{1-line story summary} 👇
2/ {Highlight 1 with image}
3/ {Highlight 2 with image}
4/ 📊 Stats: {total}/888 ({%}) | Discord: {count}
Next week: {preview}
Collect → [link]
```

Daily Engagement Workflow (10 min)

```
Minutes 0-3:   Reply to all mentions + comments
Minutes 3-6:   Quote-tweet 1-2 community posts
Minutes 6-9:   Engage with 5 posts in #NFTCommunity,
               #AIArt, #PhilosophicalArt
Minutes 9-10:  Follow 3-5 relevant new accounts
```

8.6 CHANNEL 3: DISCORD

```
DAILY DISCORD TASKS (5 min):
 ├─── Post DAY command Discord announcement in #announcements
 ├─── Welcome any new members (check #introductions)
 ├─── Quick scan of marketplace threads
 └─── Reply to any #help-questions

WEEKLY DISCORD TASKS (Sunday, 10 min):
 ├─── Post weekly recap in #announcements
 ├─── Launch Philosophy Challenge (Stella's voice)
 ├─── Check: any unprocessed marriage requests?
 └─── Review: moderation issues?

See DOC 4 Section 4.2 for complete channel architecture.
```

Philosophy Challenge Template (Weekly, Stella's voice)

```
✨ **WEEKLY PHILOSOPHY CHALLENGE** ✨

Stella here 🌟

This week's theme: **{Theme Name}**

📜 **THE CHALLENGE:**
Create art (any medium!) inspired by this quote:
> "{Quote}" — {Author}

📋 **RULES:**
• Any skill level
• Any medium (digital, physical, photo, sketch)
• Share in #art-discussion by Saturday
• Include your interpretation in 1-2 sentences

🏆 **WINNER GETS:**
• Featured on all Turbomindz social channels
• Spotlight in next week's recap
• "🎨 Challenge Winner" role
```

```
Drop a 🎨 if you're in!
```

8.7 CHANNEL 4: PATREON

```
DAILY PATREON TASK (5 min):
├─── Mon: Post "This Week" (public) — from DAY data
├─── Wed: Post "Early Preview" (patron-only) — tomorrow's scene
├─── Fri: Post "Production Journal" (patron-only) — behind-scenes
└─── Other days: No post required (batch on scheduled days)

See DOC 5 Section 7.5 for complete tier structure and
content calendar.
```

8.8 CHANNEL 5: KO-FI

```
DAILY KO-FI TASK (2 min):
├─── Check for new orders → process
├─── Check for new donations → thank in DMs
└─── No daily posting required

WEEKLY:
├─── Add new products as catalog grows
│    (every 25 NFTs = new wallpaper pack)
└─── Update shop description with latest count

See DOC 5 Section 7.6 for complete product catalog.
```

8.9 CHANNEL 6: WEBSITE

```
SETUP: See DOC 4 Section 4.3 (Carrd or Bolt V2)
MAINTENANCE: Minimal — update links as channels grow

WEEKLY (5 min):
├─── Check newsletter signup count (Buttondown)
├─── Update collection count if displayed
└─── Add blog post if using Bolt V2 (monthly)
```

8.10 CHANNEL 7: EMAIL / BUTTONDOWN

Welcome Email (Automated — set up once)

```
SUBJECT: Welcome to the Odyssey, Seeker 🎨

"Know thyself." — Temple of Apollo, Delphi

Hey {name},

Cosmo here. Welcome to the Odyssey.

Every week I'll send you:
🎨 This week's best scene + philosophy behind it
📓 A behind-the-scenes look at the art process
💡 One idea from ancient wisdom you can use today
```

```
👀 Easter eggs from recent scenes

QUICK LINKS:
• Collect NFTs: [OpenSea]
• Join Community: [Discord]
• Support: [Patreon] / [Ko-fi]

The NFT is the soul. The art is the body.
The community is the village.

Create. Connect. Trade Fair.
— Cosmo 🧡
```

📊 BY THE NUMBERS
• Scenes completed: {X} of 888 ({%})
• Universes visited: {X} of 39
• Community: {Discord + social counts}

💡 PHILOSOPHY MINUTE
{INSIGHT from best scene}
Try this today: {1-sentence advice}

👀 EASTER EGG REVEAL
Two weeks ago in TM-{X}:
{Reveal 1 egg} → It foreshadows: {meaning}

🔜 NEXT WEEK PREVIEW
{1-2 sentence tease}

🔗 OpenSea | Discord | Patreon

Create. Connect. Trade Fair. 🎨
— Cosmo
```

8.11 CHANNEL 8: TIKTOK + YOUTUBE SHORTS

```
SETUP:
├─── TikTok: @turbomindz (Creator account)
├─── YouTube: "Turbomindz" channel + enable Shorts
└─── Cross-post same content to both + Instagram Reels
```

```
4 VIDEO TYPES (all AI-generated, no human):

TYPE 1: "QUOTE REVEAL" (15s) — Daily
├─── Ken Burns on MJ image + text overlay
├─── See Reel template in Section 8.4
└─── Cross-post to all 3 platforms

TYPE 2: "CHARACTER INTRO" (30s) — Monthly
├─── 0-5s: Character portrait, "Meet {Name}"
├─── 5-15s: Character in universe, voice line
├─── 15-25s: Key scene, INSIGHT
├─── 25-30s: "Follow for 888 scenes @turbomindz"

TYPE 3: "DID YOU KNOW?" (30s) — 2×/week
├─── 0-3s: "DID YOU KNOW? 🧠"
├─── 3-15s: NFT scene + philosophical fact
├─── 15-25s: Second angle + actionable takeaway
├─── 25-30s: "Scene {X} of 888 | @turbomindz"

TYPE 4: "EASTER EGG REVEAL" (15s) — Weekly
├─── 0-3s: Scene image normal, "Can you see it? 👀"
├─── 3-8s: Zoom into hidden element
├─── 8-12s: Flash to future scene it references
├─── 12-15s: "5 secrets in every scene. @turbomindz"
```

8.12 CHANNEL 9: GUMROAD

```
See DOC 5 Section 7.8 for complete product catalog.

MARKETING INTEGRATION:
├─── "Phygital Art 101" (FREE) linked in all bios = lead magnet
├─── Each Instagram Art Education post links to paid curriculum
├─── Newsletter promotes new products monthly
├─── Patreon public posts mention Gumroad products
└─── Ko-fi shop cross-links to Gumroad for premium products
```

8.13 CHANNEL 10: PRINTFUL

```
See DOC 5 Section 7.7 for complete product catalog + margins.

MARKETING INTEGRATION:
├─── Instagram Stories: "New print available!" with link
├─── Twitter: Monthly merch showcase thread
├─── Discord #announcements: "Merch drop" notification
├─── Ko-fi shop: list Printful products
└─── Newsletter: "Shop" section with featured product
```

8.14 CHANNEL 11: PRODUCTHUNT (Launch Event)

```
TIMING: Week 9-12 (when 100+ NFTs, community established)
DAY: Tuesday-Thursday (highest traffic)

PREPARATION (60 min, week before):
☐ Create maker account
```

```
☐ Prepare: Logo 240×240, Gallery 5-8 images,
  GIF/video 30s, tagline, description

TAGLINE (60 chars max):
"AI philosophical art NFTs that marry to physical works"

DESCRIPTION:
Turbomindz is an 888-scene philosophical art odyssey
where AI-generated claymation characters travel through
39 universes exploring wisdom from history's greatest
thinkers.

What makes it different:
🎨 888 scenes tell ONE continuous story
💍 "Marriage" system binds NFTs to physical artworks
🏪 Marketplace organized by art MEDIUM
📚 Discussion rooms by philosophical THEME
🤝 All trades happen in PUBLIC
⚖️ Disputes resolved by community Elders
🔗 Polygon (near-zero fees)

FIRST COMMENT (from maker):
"Hey PH! 👋

I built Turbomindz solo, starting with $10.

Every one of our 888 scenes teaches philosophy,
hides 5 secrets, and can be permanently 'married'
to physical artwork you create.

I'd love feedback on:
1. The Marriage system (digital + physical binding)
2. The marketplace organized by art medium
3. The art education curriculum (150+ styles)

AMA in the comments! 🎨"

LAUNCH DAY:
☐ Cross-promote on ALL channels simultaneously
☐ Respond to every PH comment within 30 minutes
☐ Post updates throughout the day
☐ Also submit to BetaList (free)
☐ Post on Hacker News "Show HN"
```

8.15 CHANNEL 12: PINTEREST

```
SETUP:
☐ Business account: "Turbomindz"
☐ 5 boards created:
  ├─── "Turbomindz Odyssey" (all NFT scenes)
  ├─── "Philosophical Quotes" (quote cards)
  ├─── "Art Styles" (education content)
  ├─── "Claymation Art" (character portraits)
  └─── "Phygital Art" (marriage concept)

DAILY (3 min):
```

```
 ├─── Pin today's NFT scene image
 ├─── Description: Quote + title + link to OpenSea
 ├─── Pin 1-2 older images to other boards
 └─── Total: 2-3 pins per day

WHY: Pinterest pins surface in Google Image Search.
Art content performs well. Each pin = permanent SEO asset.
Zero-effort after initial pin. Works while you sleep.
```

8.16 CHANNEL 13: MEDIUM

```
FREQUENCY: 1 article per week (30 min to write)
LAUNCH: Week 6+

ARTICLE TYPES (rotate):

Week A — "Art Style Deep Dive":
Title: "What Is {Art Style}? A Guide for Collectors"
Content: Expanded ART_CURRICULUM lesson (800-1,200 words)
CTA: "See this style in Turbomindz Scene {X} →"
SEO: Targets "{Art Style}" keyword

Week B — "Philosophy Explained":
Title: "What {Philosopher} Really Meant by '{Quote}'"
Content: PLOT_TWIST expanded (800-1,200 words)
CTA: "Explore this concept in the Odyssey →"
SEO: Targets "{Philosopher} + {concept}" keyword

Week C — "Behind the Scenes":
Title: "How I Create Philosophical AI Art (Week {X})"
Content: Production journal entry
CTA: "Support the project on Patreon →"
SEO: Targets "AI art creation" keywords

Week D — "Phygital Art":
Title: "What Is Phygital Art? The Future of Collecting"
Content: Marriage system explanation
CTA: "Join the community on Discord →"
SEO: Targets "phygital art" keyword (emerging term)

TOTAL: ~48 articles in Year 1 = substantial SEO portfolio
Each article ranks in Google and drives traffic for YEARS.
```

8.17 CHANNEL 14: ETSY + AMAZON KDP

```
ETSY (Month 4+):
 ├─── Digital downloads (same as Gumroad): wallpapers, PDFs
 ├─── Physical prints (Printful fulfills)
 ├─── Main value: Etsy has built-in art buyer audience
 ├─── Listing fee: $0.20 per item
 ├─── Transaction: 6.5%
 └─── Cross-list top 10 best-sellers from Ko-fi/Gumroad

AMAZON KDP (Month 4+):
 ├─── Coloring Book: $9.99 paperback (print-on-demand)
```

```
 ├─── Philosophy Quote Journal: $12.99
 ├─── Art book (when 200+ scenes): $24.99-39.99
 ├─── Royalty: 35-70% depending on pricing/distribution
 └─── Main value: Amazon's massive discovery audience
```

8.18 CHANNEL 15: OPENSEA

```
See DOC 4 Section 4.5 for setup.
See DOC 5 Section 7.4 for pricing.

DAILY: List new NFT(s) from DAY command output.
WEEKLY: Review collection analytics.
MONTHLY: Adjust floor price if warranted.

OPTIMIZATION:
 ├─── Rich descriptions with quotes + story beats
 ├─── All properties/traits filled (drives filter discovery)
 ├─── Collection description links to all channels
 └─── Creator earnings: 5% (standard, maintains value signal)
```

8.19 CROSS-CHANNEL CONTENT CALENDAR

```
WEEKLY POSTING SCHEDULE (Solo Founder)
═══════════════════════════════════════════════════════

MONDAY
 ├─── Produce: 1-2 NFTs (DAY command)
 ├─── Instagram: NFT post
 ├─── Twitter: NFT announcement
 ├─── Discord: Announcement
 ├─── Patreon: "This Week in the Odyssey" (PUBLIC)
 └─── Pinterest: 2-3 pins

TUESDAY
 ├─── Produce: 1-2 NFTs
 ├─── Instagram: NFT post + Reel
 ├─── Twitter: NFT + engagement post
 ├─── Discord: Quick check
 └─── Pinterest: 2-3 pins

WEDNESDAY
 ├─── Produce: 1-2 NFTs
 ├─── Instagram: NFT post
 ├─── Twitter: Engagement thread
 ├─── Discord: Announcement
 ├─── Patreon: "Early Preview" (PATRON-ONLY)
 └─── Pinterest: 2-3 pins

THURSDAY
 ├─── Produce: 1-2 NFTs
 ├─── Instagram: NFT post
 ├─── Twitter: NFT + philosophy thread
 ├─── TikTok: Video (cross-post Reel)
 └─── Pinterest: 2-3 pins
```

```
FRIDAY
 ├─── Produce: 1-2 NFTs
 ├─── Instagram: NFT post
 ├─── Twitter: NFT announcement
 ├─── Patreon: "Production Journal" (PATRON-ONLY)
 ├─── Medium: Weekly article (30 min)
 └─── Pinterest: 2-3 pins

SATURDAY
 ├─── Produce: 1-2 NFTs
 ├─── Instagram: Art Education carousel
 ├─── Twitter: Engagement post + poll
 ├─── Ko-fi: Check orders
 └─── Pinterest: 2-3 pins

SUNDAY
 ├─── Produce: 1-2 NFTs
 ├─── Twitter: Weekly recap thread
 ├─── Email: Send Buttondown newsletter (15 min)
 ├─── Discord: Weekly announcement + challenge
 ├─── Buffer: Schedule next week (20 min)
 ├─── Revenue: Weekly check (5 min)
 └─── Admin: Plan next week
```

8.20 THE 10 REVOLUTIONARY TACTICS

```
TACTIC 1: THE REVERSE LAUNCH
═══════════════════════════════════════════════

Open Discord BEFORE NFTs sell. Run mock trades.
Let people SEE the marketplace working before
they need to buy anything. Proof before purchase.
TIMING: Week 5 (Discord public before first sale needed)

TACTIC 2: THE EMPTY FRAME CAMPAIGN
═══════════════════════════════════════════════════════

Send influencers an empty physical frame with a note:
"This frame is waiting for a soul.
The soul lives at turbomindz.xyz"
COST: ~$10-15 per frame + shipping
TIMING: Month 3 (when revenue covers it)
TARGET: 10-20 art/philosophy influencers

TACTIC 3: TRANSPARENCY THEATER
═══════════════════════════════════════════════

Every internal process becomes content:
 ├─── Marriage verifications → Instagram carousel
 ├─── Dispute resolutions → Twitter thread
 ├─── Revenue reports → newsletter feature
 ├─── Art production → Patreon journal
 └─── Everything public = everything is marketing

TACTIC 4: PHILOSOPHY CHALLENGES
═══════════════════════════════════════════════

Weekly art challenges in Discord (Stella hosts).
Winners featured across all channels.
Creates user-generated content.
```

```
TIMING: Week 5+

TACTIC 5: PROVENANCE MUSEUM
──────────────────────────────────────────────────
Showcase channel for notable phygital pieces.
Digital gallery of married artworks with full stories.
Living proof the Marriage system works.
TIMING: After first 3 marriages

TACTIC 6: GUILD PARTNERSHIPS
──────────────────────────────────────────────────
Partner with other NFT communities for cross-pollination.
Shared events, shared theme rooms, shared challenges.
TIMING: Month 3+ (need established community first)

TACTIC 7: THE ANALOG BRIDGE
──────────────────────────────────────────────────
Target physical art communities specifically:
 ├─── Local art groups on Facebook
 ├─── r/art, r/painting, r/sculpture subreddits
 ├─── Art school bulletin boards
 ├─── Gallery mailing lists
 ├─── Art supply store partnerships
 └─── Message: "Your painting can have a digital soul"

TACTIC 8: EDUCATION FUNNEL
──────────────────────────────────────────────────
Free "Phygital Art 101" (Gumroad) →
Email capture → Newsletter → NFT education →
Community → First purchase
TIMING: Week 4 (Gumroad launch)

TACTIC 9: TRUST SCOREBOARD
──────────────────────────────────────────────────
Public dashboard showing:
 ├─── Total trades completed
 ├─── Average resolution time
 ├─── Disputes opened vs resolved
 ├─── Marriages verified
 ├─── Community satisfaction
Live on website. Updated by DASH tab.
TIMING: Month 3 (when enough data exists)

TACTIC 10: MEMBER ORIGIN STORIES
──────────────────────────────────────────────────────
Feature community members' stories:
 ├─── Why they joined
 ├─── Their first NFT
 ├─── Their marriage story (if applicable)
 ├─── Their philosophical journey
 └─── Monthly feature across all channels
TIMING: Month 3+ (need member stories)
```

8.21 FIRST ORGANIC MARRIAGE CAMPAIGN

THE FIRST MARRIAGE CHALLENGE (Week 7 — Stella's voice)

POST ON ALL CHANNELS SIMULTANEOUSLY:

🌟✨ THE FIRST MARRIAGE CHALLENGE ✨🌟

Stella here. I've been weaving threads between
digital souls and physical bodies since Scene 16.

Now it's YOUR turn.

🏆 THE CHALLENGE:
1. Own any Turbomindz NFT
2. Create physical art inspired by your scene
   (ANY medium: painting, drawing, sculpture,
   photograph, print, craft — YOU choose)
3. Post your "Marriage Request" in Discord
4. Get verified by our Scribe

🎁 THE PRIZE:
First verified marriage gets:
✅ Featured across all Turbomindz channels
✅ Free Marriage fee forever (normally $20)
✅ "First Marriage" unique badge
✅ Their story becomes permanent lore
✅ Physical piece in Provenance Museum

💡 ANY SKILL LEVEL. ANY MEDIUM.
A pencil sketch counts. A clay figure counts.

The Marriage isn't about skill.
It's about BINDING wisdom to creation.

"The NFT is the soul. The art is the body."
Make them one.

Drop a 💍 if you're in!

#Turbomindz #FirstMarriage #PhygitalArt

PRE-CAMPAIGN CONTENT (Weeks 3-6):
├── Week 3: "How Marriage Works" carousel (7 slides)
├── Week 4: "What Medium Should You Choose?" guide
├── Week 5: Marriage 101 video (CapCut)
├── Week 6: Examples of physical art that COULD marry
└── Week 7: LAUNCH THE CHALLENGE

POST-MARRIAGE CONTENT:
├── Full Twitter thread documenting every step
├── Instagram carousel (physical + digital side by side)
├── Discord announcement with full details
├── Patreon "First Marriage Story" post
├── Newsletter special edition
├── This IS "Transparency Theater" (Tactic 3)

8.22 SEO STRATEGY

```
SEO ASSETS BY CHANNEL:

WEBSITE (Bolt V2 / Carrd):
├─── Homepage: "Turbomindz NFT" + "philosophical art NFT"
├─── Collection page: "{theme name} NFT art"
├─── Blog posts: art style keywords
├─── FAQ page: long-tail question keywords
└─── Sitemap + robots.txt submitted to Google Search Console

MEDIUM (48+ articles/year):
├─── Art style articles: "{Style Name} art history"
├─── Philosophy articles: "{Philosopher} meaning {quote}"
├─── Process articles: "AI art creation process"
├─── Concept articles: "phygital art" "NFT marriage"
└─── Each ranks independently in Google

PINTEREST (1,000+ pins/year):
├─── Every pin = Google Image Search result
├─── Art-related keywords in descriptions
├─── Link back to OpenSea/website
└─── Compounds over years

YOUTUBE (if launched):
├─── Video titles with keywords
├─── Descriptions with links
├─── YouTube = second largest search engine
└─── "Art education" videos rank well

TARGET KEYWORDS:
├─── Primary: "philosophical art NFT", "AI art NFT",
│   "phygital art", "claymation NFT"
├─── Secondary: Each of 150+ art styles by name
├─── Long-tail: "what is {art style}",
│   "{philosopher} philosophy explained"
└─── Brand: "Turbomindz", "Turbomindz NFT"
```

8.23 INFLUENCER & PARTNERSHIP OUTREACH

```
OUTREACH STRATEGY (Month 3+ when content library exists):

TARGET 1: ART INFLUENCERS (Instagram/TikTok)
├─── 10K-100K followers (micro-influencers, more engaged)
├─── Focus: AI art, digital art, claymation, art education
├─── Approach: DM with 1 free NFT offer for review
├─── Template:
│   "Hi {name}! I'm building Turbomindz — 888 philosophical
│   art scenes in claymation style. I'd love to send you
│   one for your honest reaction. Each scene hides 5 secrets
│   and features ancient wisdom. Interested?"
└─── Target: 5 outreach/week, 1-2 responses expected

TARGET 2: PHILOSOPHY CREATORS
├─── YouTube, TikTok, Twitter philosophy accounts
```

```
 ├─── Approach: Share relevant scene that matches their topic
 ├─── Template:
 │   "Your video on {topic} reminded me of Scene {X} from
 │   our project — '{quote}'. We're exploring the same ideas
 │   through AI art. Would love your take on it."
 └─── Target: 3 outreach/week

TARGET 3: NFT COMMUNITY LEADERS
 ├─── Twitter accounts with NFT/Web3 focus
 ├─── Approach: Unique angle (Marriage system, transparency)
 ├─── Template:
 │   "We built something different — an NFT marketplace where
 │   ALL trades happen in public and digital art permanently
 │   'marries' physical works. Would love your feedback."
 └─── Target: 3 outreach/week

TARGET 4: LOCAL ART COMMUNITIES (The Analog Bridge)
 ├─── Facebook groups, Meetup groups, gallery mailing lists
 ├─── Approach: "Your painting can have a digital soul"
 ├─── Share "Phygital Art 101" free guide
 └─── Target: 2 communities/week

EMPTY FRAME CAMPAIGN (Tactic 2):
 ├─── When: Month 3 (budget: $150-300)
 ├─── Send 10-20 empty frames with card:
 │   "This frame is waiting for a soul.
 │    The soul lives at turbomindz.xyz"
 ├─── Target: art/philosophy influencers
 ├─── Follow up 1 week after delivery
 └─── Track: who posts, who responds, who collects
```

DOC 6 CONTEXT FOR NEW CHAT

```
INSTRUCTIONS FOR AI IN NEW CHAT:

DOC 6 is the MARKETING ENGINE. Use when:
 ├─── Generating any social media content
 ├─── Creating posts for any channel
 ├─── Planning content calendars
 ├─── Writing promotional copy
 ├─── Creating video scripts
 ├─── Designing outreach messages
 ├─── Planning campaigns (marriage, launch)
 ├─── Writing newsletter content
 ├─── Creating SEO content (Medium articles)
 └─── Any marketing/distribution decision

INTEGRATION WITH DAY COMMAND:
The DAY command (DOC 2 Section 2.11) generates ALL
daily content. DOC 6 provides the TEMPLATES and
CHANNEL-SPECIFIC FORMATTING that DAY output follows.

KEY RULE: All content is in CHARACTER VOICE.
 ├─── Check character availability thresholds (DOC 2)
 ├─── Check voice mix (DOC 1: 35/30/20/15)
 ├─── Check "Never" list (DOC 1 Section 1.7)
```

```
└─── Never show human face/voice

CROSS-REFERENCES:
├─── DOC 1: Voice, brand, principles
├─── DOC 2: Characters, DAY command, story data
├─── DOC 3: Production formats, hashtag pools
├─── DOC 4: Discord setup, website setup
├─── DOC 5: Pricing, revenue tracking, products
├─── DOC 7: Automation for posting + scheduling
└─── DOC 8: Launch sequence timing
```

DOC 6 COMPLETE ✅

```
GENERATION PROGRESS:

Doc  Filename                        Status     Est. Words
──── ──────────────────────────────  ────────   ──────────
1    TM_BIBLE_v7_DOC1_VISION.md      ✅         ~4,000
2    TM_BIBLE_v7_DOC2_STORY.md       ✅         ~12,000
3    TM_BIBLE_v7_DOC3_PRODUCTION.md  ✅         ~14,000
4    TM_BIBLE_v7_DOC4_PLATFORM.md    ✅         ~11,000
5    TM_BIBLE_v7_DOC5_REVENUE.md     ✅         ~10,000
6    TM_BIBLE_v7_DOC6_MARKETING.md   ✅         ~13,000
7    TM_BIBLE_v7_DOC7_OPERATIONS.md  ⏳ Ready
8    TM_BIBLE_v7_DOC8_LAUNCH.md      ⏳ Ready
```

DOCs 1-6 now cover: Vision, Story, Production, Platform, Marketplace, Charter, Revenue, and Marketing. The project can now:

- ✅ Produce daily NFTs (DAY command)
- ✅ Run the marketplace + marriages + disputes
- ✅ Price everything correctly
- ✅ Track all revenue
- ✅ Post to all 15 channels with copy-paste templates
- ✅ Run campaigns (Marriage Challenge, ProductHunt)
- ✅ Generate all content through character voices
- ✅ Execute SEO strategy

DOCs 7-8 add: Automation code, scaling plan, and complete launch checklists.
Ready for **DOC 7 (Operations & Automation)** on your command.

`TM_BIBLE_v7_DOC7_OPERATIONS.md`

TURBOMINDZ MASTER BIBLE v7.0 — DOCUMENT 7 OF 8

OPERATIONS & AUTOMATION

Version: 7.0 | **Date:** 2026-02-25 | **Status:** FINAL **Scope:** SOPs, Google Apps Script (complete code), n8n workflows (7), scaling plan, troubleshooting, maintenance, KPIs

---

TABLE OF CONTENTS — DOC 7

```
9.1   Operations Philosophy
9.2   Standard Operating Procedures (5 SOPs)
9.3   Pre-n8n Automation: Google Apps Script (3 Scripts + Install)
9.4   Pre-n8n Automation: Buffer + IFTTT + Buttondown
9.5   n8n Automation: Setup Guide
9.6   n8n Workflow 1: Daily Content Pipeline
9.7   n8n Workflow 2: Marriage Request Processor
9.8   n8n Workflow 3: Weekly Newsletter Compiler
9.9   n8n Workflow 4: Twitter Recap Thread
9.10  n8n Workflow 5: Monthly Transparency Report
9.11  n8n Workflow 6: Print-on-Demand Auto-Listing
9.12  n8n Workflow 7: Patreon Content Drafter
9.13  Advanced AI Agent Workflows
9.14  Time Savings Analysis
9.15  Scaling Plan (Solo → Community → Team)
9.16  KPI Dashboard
9.17  Risk Mitigation
9.18  Troubleshooting Reference
9.19  Maintenance Schedule
9.20  Complete Automation Deployment Checklist
```

9.1 OPERATIONS PHILOSOPHY

```
TURBOMINDZ OPERATIONS PRINCIPLES:

1. UNDERSTAND BEFORE AUTOMATING
   Run every process manually for 4 weeks.
   Automating a bad process makes bad things happen faster.

2. FREE BEFORE PAID
   Google Apps Script → Buffer → IFTTT → then n8n.
   Only upgrade when free tools limit you.

3. AUTOMATE THE BORING, NOT THE CREATIVE
   Automate: posting, spreadsheet updates, notifications
   Keep manual: MJ generation, caption writing, engagement

4. REVIEW BEFORE PUBLISH
   All automation outputs go to DRAFT first.
   Human reviews, then publishes.
   No fully autonomous posting until 50+ error-free outputs.

5. ONE WORKFLOW AT A TIME
```

```
   Deploy, monitor 48 hours, fix issues, then deploy next.
   Never activate multiple new workflows simultaneously.
```

9.2 STANDARD OPERATING PROCEDURES

SOP 1: Daily NFT Production

```
SOP 1: DAILY NFT PRODUCTION
═══════════════════════════════════════════════

Trigger: Every day
Duration: 120 minutes
Output: 1-2 NFTs + all channel posts

1. Run DAY command for today's date
   → Receive complete production package (DOC 2 Section 2.11)

2. PRODUCE (60 min)
   ☐ Verify PD_OK for today's quote
   ☐ Select character config + outfits
   ☐ Copy MJ prompt → run in Midjourney
   ☐ Select best output → upscale → download
   ☐ Upload to Pinata IPFS → record CIDs
   ☐ Create metadata JSON → upload to Pinata
   ☐ List on OpenSea (Polygon, fixed price per DOC 5)
   ☐ Update spreadsheet (PRODUCTION, ART, MINT tabs)

3. DISTRIBUTE (30 min)
   ☐ Post Instagram (paste CAPTION_FULL)
   ☐ Post Twitter (paste Twitter post)
   ☐ Post Discord #announcements
   ☐ Post Patreon (if Mon/Wed/Fri)
   ☐ Check Ko-fi for orders

4. ENGAGE (20 min)
   ☐ Reply to all comments
   ☐ Engage with 10 new accounts
   ☐ Welcome new Discord members

5. ADMIN (10 min)
   ☐ Revenue check
   ☐ Preview tomorrow's scene
   ☐ Update LOG tab
```

SOP 2: Marriage Verification

```
SOP 2: MARRIAGE VERIFICATION
═══════════════════════════════════════════════

Trigger: New thread in #marriage-requests
Turnaround: 48 hours maximum
Full checklist: DOC 4 Section 5.3

QUICK REFERENCE:
☐ Wallet owns NFT? (check OpenSea)
☐ NFT not already married? (check #verified-marriages)
☐ Photos adequate? (4-6, 2000px+)
☐ Video continuous? (NO CUTS — instant reject if cut)
☐ Video shows date + username + NFT#?
```

```
☐ Description complete? (title, type, medium, dims, condition)
☐ Art type matches marketplace category?

IF ALL MET → ✅ VERIFIED + [COA] + move to #verified-marriages
IF NOT → Request corrections (72h to fix)
```

SOP 3: Dispute Resolution

```
SOP 3: DISPUTE RESOLUTION
━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━

Trigger: [DISPUTE] tag added to trade thread
Full process: DOC 4 Section 5.5

SOLO FOUNDER PHASE:
Day 0: Buyer posts dispute + evidence
Day 1: Seller must respond (24h)
Day 2: Founder reviews evidence
Day 3: Founder posts ruling + reasoning

ELDER PHASE (Month 6+):
Day 0-2: Evidence from both sides
Day 3-5: 5-Elder panel deliberates
Day 6-7: Verdict posted, remedies executed
```

SOP 4: Weekly Reporting

```
SOP 4: WEEKLY REPORTING
━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━

Trigger: Every Sunday
Duration: 30 minutes

☐ Revenue check (all platforms — DOC 5 Section 7.14)
☐ Post Twitter recap thread (DOC 6 Template C)
☐ Send newsletter (DOC 6 Section 8.10)
☐ Post Discord weekly announcement
☐ Schedule next week in Buffer (20 min)
☐ Update DASH tab
☐ Review: any automation failures this week?
☐ Review: any unprocessed marriage requests?
☐ Plan: next week's special tasks
```

SOP 5: Monthly Reporting

```
SOP 5: MONTHLY REPORTING
━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━

Trigger: 1st of every month
Duration: 45 minutes

☐ Generate Transparency Report (DOC 5 Section 7.14)
☐ Post to Discord #transparency-reports
☐ Include in monthly newsletter
☐ Revenue accounting (all platforms)
☐ Expense tracking (DOC 5 Section 7.13)
☐ Check: trademark/copyright filings needed?
☐ Check: any automation failures this month?
☐ Check: upgrade triggers met? (DOC 5 Section 7.15)
☐ Review KPIs vs targets (Section 9.16)
☐ Plan next month's special content
```

9.3 PRE-n8n AUTOMATION: GOOGLE APPS SCRIPT

Deploy during Weeks 1-4. Cost: $0. Requires: Google Sheets.

Script 1: Auto-Update DASH Tab

```
WHAT IT DOES: Every day at 6 AM UTC, recalculates
all DASH tab metrics from PRODUCTION data.
TIME SAVED: ~8 min/day

INSTALLATION:
1. Open Master Spreadsheet → Extensions → Apps Script
2. Delete default code
3. Paste code below
4. Save as "Turbomindz Automations"
5. Run once manually (▶) → authorize when prompted
6. Set trigger: ⏰ → Add Trigger → updateDash →
   Time-driven → Day timer → 6am to 7am
function updateDash() {
  var ss = SpreadsheetApp.getActiveSpreadsheet();
  var prod = ss.getSheetByName('PRODUCTION');
  var dash = ss.getSheetByName('DASH');

  if (!prod || !dash) {
    Logger.log('ERROR: PRODUCTION or DASH sheet not found');
    return;
  }

  var prodData = prod.getDataRange().getValues();
  var headers = prodData[0];
  var statusCol = headers.indexOf('STATUS');
  var themeCol = headers.indexOf('THEME');
  var uNameCol = headers.indexOf('U_NAME');
  var charsCol = headers.indexOf('CHARACTERS');
  var configCol = headers.indexOf('CONFIG');

  var totalProduced = 0;
  var themeCounts = {};
  var universes = new Set();
  var charsActive = new Set();

  for (var i = 1; i < prodData.length; i++) {
    var row = prodData[i];
    if (!row[0]) continue;

    var status = String(row[statusCol] || '');
    if (status.indexOf('Published') > -1 ||
        status.indexOf('Drafted') > -1 ||
        status.indexOf('✅') > -1) {
      totalProduced++;
    }

    var theme = String(row[themeCol] || '');
    if (theme && theme !== 'THEME') {
      themeCounts[theme] = (themeCounts[theme] || 0) + 1;
    }

    var uName = String(row[uNameCol] || '');
```

```
      if (uName && uName !== 'U_NAME') {
        universes.add(uName);
      }

      var chars = String(row[charsCol] || '');
      if (chars.indexOf('Cosmo') > -1) charsActive.add('Cosmo');
      if (chars.indexOf('Nova') > -1) charsActive.add('Nova');
      if (chars.indexOf('Stella') > -1) charsActive.add('Stella');
      if (chars.indexOf('Luna') > -1) charsActive.add('Luna');
    }

    var percent = (totalProduced / 888);
    var today = new Date();
    var daysElapsed = Math.max(1, Math.floor(
      (today - new Date('2026-02-15')) / 86400000));
    var pace = totalProduced / daysElapsed;
    var remaining = 888 - totalProduced;
    var daysRemaining = pace > 0 ? Math.ceil(remaining / pace) : 999;
    var projectedEnd = new Date(today.getTime() +
      (daysRemaining * 86400000));

    var dashData = [
      ['CURRENT_DATE', Utilities.formatDate(today, 'UTC', 'yyyy-MM-dd')],
      ['CURRENT_WEEK', Math.ceil(daysElapsed / 7)],
      ['CURRENT_DAY', daysElapsed],
      ['TOTAL_PRODUCED', totalProduced],
      ['PERCENT', (percent * 100).toFixed(2) + '%'],
      ['PROJECTED_END', Utilities.formatDate(projectedEnd, 'UTC', 'yyyy-MM-dd')],
      ['THEME_Classical', themeCounts['Classical Foundations'] || 0],
      ['THEME_Enlightenment', themeCounts['Enlightenment & Reason'] || 0],
      ['THEME_Existentialism', themeCounts['Existentialism & Modern'] || 0],
      ['THEME_Mysticism', themeCounts['Mysticism & Esoterica'] || 0],

      ['EGGS_TOTAL', totalProduced * 5],
      ['LAST_UPDATED', Utilities.formatDate(today, 'UTC',
        'yyyy-MM-dd HH:mm:ss') + ' UTC']
    ];

    dash.getRange(1, 1, dash.getLastRow() || 1, 2).clearContent();
    dash.getRange(1, 1, dashData.length, 2).setValues(dashData);
    Logger.log('DASH updated. ' + totalProduced + ' NFTs (' +
      (percent * 100).toFixed(2) + '%)');
  }
```

Script 2: Discord Webhook on NFT Publish

```
  WHAT IT DOES: When PRODUCTION tab STATUS changes to
  "Published", auto-posts to Discord #announcements.
  TIME SAVED: ~5 min/day

  INSTALLATION:
```

```
1. In Apps Script, click + → Script → name "DiscordWebhook"
2. Paste code below
3. Replace WEBHOOK_URL with your Discord webhook
   (Discord → #announcements → Settings → Integrations →
    Webhooks → New → Copy URL)
4. Save
5. Set trigger: ⏰ → Add Trigger → onEditDiscord →
   From spreadsheet → On edit
var DISCORD_WEBHOOK_URL = 'PASTE_YOUR_WEBHOOK_URL_HERE';

function onEditDiscord(e) {
  try {
    var sheet = e.source.getActiveSheet();
    if (sheet.getName() !== 'PRODUCTION') return;

    var range = e.range;
    var row = range.getRow();
    var col = range.getColumn();
    var headers = sheet.getRange(1, 1, 1,
      sheet.getLastColumn()).getValues()[0];
    var statusColIndex = headers.indexOf('STATUS') + 1;

    if (col !== statusColIndex) return;
    var newValue = String(e.value || '');
    if (newValue.indexOf('Published') === -1) return;

    var rowData = sheet.getRange(row, 1, 1,
      sheet.getLastColumn()).getValues()[0];

    var tmId = rowData[headers.indexOf('TM_ID')];
    var title = rowData[headers.indexOf('SCENE_TITLE')];
    var quote = rowData[headers.indexOf('QUOTE')];
    var author = rowData[headers.indexOf('AUTHOR')];
    var theme = rowData[headers.indexOf('THEME')];
    var universe = rowData[headers.indexOf('U_NAME')];
    var characters = rowData[headers.indexOf('CHARACTERS')];

    var payload = {
      "embeds": [{
        "title": "🎨 NEW SCENE: " + tmId + " — " + title,
        "description":
          "**¥"" + quote + "¥"** — " + author + "¥n¥n" +
          "🏷️ **Theme:** " + theme + "¥n" +
          "🌌 **Universe:** " + universe + "¥n" +
          "👥 **Characters:** " + characters + "¥n¥n" +
          "👀 **5 easter eggs hidden.** Can you find them?",
        "color": 13214215,
        "footer": {
          "text": "Create. Connect. Trade Fair. 🎨 | " +
            tmId.replace('TM-','') + " of 888"
        },
        "timestamp": new Date().toISOString()
      }]
    };

    UrlFetchApp.fetch(DISCORD_WEBHOOK_URL, {
      "method": "post",
```

```
        "contentType": "application/json",
        "payload": JSON.stringify(payload),
        "muteHttpExceptions": true
      });
    } catch (error) {
      Logger.log('Discord error: ' + error.toString());
    }
  }
```

Script 3: Weekly Stats Email

```
  WHAT IT DOES: Every Sunday at 8 PM UTC, emails you a
  weekly summary + task checklist.
  TIME SAVED: ~10 min/week

  INSTALLATION:
  1. In Apps Script, click + → Script → name "WeeklyEmail"
  2. Paste code below
  3. Replace email address
  4. Save
  5. Set trigger: ⏰ → Add Trigger → weeklyReport →
     Time-driven → Week timer → Sunday → 8pm to 9pm
  var MY_EMAIL = 'your.email@gmail.com';

  function weeklyReport() {
    var ss = SpreadsheetApp.getActiveSpreadsheet();
    var dash = ss.getSheetByName('DASH');

    var dashRange = dash.getDataRange().getValues();
    var d = {};
    for (var i = 0; i < dashRange.length; i++) {
      d[dashRange[i][0]] = dashRange[i][1];
    }

    var subject = '📊 Turbomindz Week ' + (d['CURRENT_WEEK'] || '?') +
      ' Report — ' + Utilities.formatDate(new Date(), 'UTC', 'yyyy-MM-dd');

    var body = '━━━
```

```
    '  ☐ Revenue check¥n' +
    '  ☐ Plan next week¥n¥n' +
    'Create. Connect. Trade Fair. 🎨¥n';

  GmailApp.sendEmail(MY_EMAIL, subject, body);
}
```

9.4 PRE-n8n AUTOMATION: BUFFER + IFTTT + BUTTONDOWN

```
BUFFER FREE (3 channels, 10 posts each):
1. Create account: buffer.com
2. Connect Instagram + Twitter (save 3rd slot)
3. Set posting times: 08:00, 13:00, 17:00 UTC
4. Every Sunday: batch-schedule 7 days of posts (20 min)

IFTTT FREE (2 applets):
1. Create account: ifttt.com
2. Applet 1: Every Sunday 6 PM → email reminder
   "Time for weekly Turbomindz tasks!"
3. Applet 2: Save for most useful cross-post automation

BUTTONDOWN FREE (100 subscribers):
1. Create account: buttondown.email/turbomindz
2. Newsletter name: "The Odyssey Dispatch"
3. From: "Cosmo from Turbomindz"
4. Set up welcome automation (DOC 6 Section 8.10)
5. Add subscribe link to all bios
```

9.5 n8n AUTOMATION: SETUP GUIDE

```
WHEN TO DEPLOY: Revenue >$50/mo OR can't finish daily
tasks in 2 hours consistently.

OPTION A: n8n Cloud (easiest)
1. Go to n8n.io → Sign up → Cloud
2. Free tier: 5 active workflows
3. URL: https://your-name.app.n8n.cloud

OPTION B: Self-Host on Railway (free)
1. Go to railway.app → Sign up
2. New Project → Deploy Template → search "n8n"
3. Deploy → wait 2-3 min
4. Access via generated URL

OPTION C: Docker Local (free, your computer)
docker run -it --rm --name n8n -p 5678:5678 ¥
  -v n8n_data:/home/node/.n8n ¥
  docker.n8n.io/n8nio/n8n
# Open: http://localhost:5678

CONNECT CREDENTIALS:
☐ Google Sheets: Settings → Sign in with Google
☐ Gmail: Settings → Sign in with Google
☐ Discord: Bot token (discord.com/developers → New App
```

```
  → Bot → Copy TOKEN → enable MESSAGE CONTENT INTENT)
☐ Buttondown: Settings → API → Copy key
```

9.6 n8n WORKFLOW 1: DAILY CONTENT PIPELINE

```
PURPOSE: Every morning, reads scene data and prepares
daily content for all channels.
TRIGGER: Daily at 06:00 UTC
TIME SAVED: ~20 min/day

FLOW:
Schedule (6 AM)
  → Code: Calculate today's TM-IDs
  → Google Sheets: Read PRODUCTION tab
  → Google Sheets: Read CAPTIONS tab
  → BRANCH 1: Discord webhook (announcement)
  → BRANCH 2: Gmail (morning brief to you)
  → BRANCH 3: Google Sheets LOG (update)

CODE NODE (Calculate TM-IDs):
const startDate = new Date('2026-02-15');
const today = new Date();
const dayNum = Math.floor((today - startDate) / 86400000) + 1;
const nftsPerDay = dayNum <= 28 ? 1 : 2;
const startId = ((dayNum - 1) * nftsPerDay) + 1;
const ids = [];
for (let i = 0; i < nftsPerDay; i++) {
  ids.push('TM-' + String(startId + i).padStart(3, '0'));
}
return [{json: {dayNum, weekNum: Math.ceil(dayNum / 7),
  ids, nftsPerDay}}];

GMAIL NODE (Morning Brief):
Subject: "☀ Day {{dayNum}} — {{ids.join(', ')}}"
Body: Scene data + MJ prompt ready + caption ready
```

9.7 n8n WORKFLOW 2: MARRIAGE REQUEST PROCESSOR

```
PURPOSE: When marriage request arrives, log it and
send you a processing checklist.
TRIGGER: Hourly check of Google Form / Discord
TIME SAVED: ~10 min per marriage request

SIMPLIFIED VERSION (Google Form approach):
1. Create Google Form: "Marriage Request"
   Fields: Discord username, NFT#, Photo links, Video link
2. Form responses → Google Sheet (auto)
3. n8n: Schedule every hour → check sheet for new rows
4. New row → Gmail: send Scribe checklist to you

GMAIL BODY:
"📋 NEW MARRIAGE REQUEST

User: {username}
NFT: {nft_id}
```

```
Received: {timestamp}
DEADLINE: {timestamp + 48h}

SCRIBE CHECKLIST:
☐ Wallet owns NFT on OpenSea
☐ NFT not already married
☐ Photos: 4-6, 2000px+
☐ Video: continuous, date+user+NFT#
☐ Description: type, medium, dims
☐ Art type matches category

→ Approve: ✅ + [COA] in Discord
→ Reject: request corrections"
```

9.8 n8n WORKFLOW 3: WEEKLY NEWSLETTER COMPILER

```
PURPOSE: Sunday, compile week's best content into
newsletter draft and send via Buttondown.
TRIGGER: Sunday at 18:00 UTC
TIME SAVED: ~25 min/week

FLOW:
Schedule (Sunday 6 PM)
  → Google Sheets: Read PRODUCTION (this week's rows)
  → Google Sheets: Read DASH (current stats)
  → Code: Compile newsletter using DOC 6 template
  → HTTP Request: POST to Buttondown API
    URL: https://api.buttondown.email/v1/emails
    Headers: Authorization: Token YOUR_API_KEY
    Body: { subject, body, status: "draft" }
  → Gmail: "Newsletter draft ready — review + send"
```

9.9 n8n WORKFLOW 4: TWITTER RECAP THREAD

```
PURPOSE: Sunday, generate weekly recap thread draft.
TRIGGER: Sunday at 16:00 UTC
TIME SAVED: ~15 min/week

FLOW:
Schedule (Sunday 4 PM)
  → Google Sheets: Read week's PRODUCTION + DASH
  → Code: Format 4-tweet thread per DOC 6 Template C
  → Gmail: Send draft to you for copy-paste posting

NOTE: Twitter API v2 posting requires Elevated access.
Until approved, the draft goes to email for manual posting.
```

9.10 n8n WORKFLOW 5: MONTHLY TRANSPARENCY REPORT

```
PURPOSE: Auto-generate monthly transparency report.
TRIGGER: 1st of month at 20:00 UTC
TIME SAVED: ~35 min/month

FLOW:
```

```
Schedule (1st, 8 PM)
  → Google Sheets: Read ALL tabs
  → Code: Calculate monthly metrics using template
    from DOC 5 Section 7.14
  → Discord: Post to #transparency-reports
  → Gmail: Send full report for review
  → Google Sheets: Archive in REPORTS tab (optional)
```

9.11 n8n WORKFLOW 6: PRINT-ON-DEMAND AUTO-LISTING

```
PURPOSE: When new NFT published, create Printful product.
TRIGGER: STATUS → "Published" in PRODUCTION tab
ACTIVATE: Only when Printful is set up (Week 5+)
TIME SAVED: ~15 min per NFT

FLOW:
Google Sheets trigger (STATUS change)
  → Read full row data + IPFS CID from MINT tab
  → HTTP Request: GET image from Pinata
  → HTTP Request: POST to Printful API
    Create sync product:
    Title: "TM-{ID}: {SCENE_TITLE}"
    Variants: 8×10 ($15.99), 11×14 ($19.99), 16×20 ($24.99)
  → Google Sheets: Update MINT tab MERCH_STATUS
```

9.12 n8n WORKFLOW 7: PATREON CONTENT DRAFTER

```
PURPOSE: Auto-draft Patreon posts Mon/Wed/Fri.
TRIGGER: Mon/Wed/Fri at 07:00 UTC
TIME SAVED: ~15 min × 3/week = 45 min/week

FLOW:
Schedule (MWF 7 AM)
  → Code: Determine content type by day
    MON = "This Week" (public)
    WED = "Early Preview" (patron-only)
    FRI = "Production Journal" (patron-only)
  → Google Sheets: Read relevant data
  → Code: Format post per DOC 6 Section 8.7 templates
  → Gmail: Send draft for review + manual posting

NOTE: Patreon has no free API for posting.
Drafts go to email for manual copy-paste.
```

9.13 ADVANCED AI AGENT WORKFLOWS

```
DEPLOY: When comfortable with n8n + revenue allows
OpenAI/Claude API costs (~$0.01-0.05 per generation)

ADVANCED A: AUTO-GENERATE SOCIAL CAPTIONS
Trigger: New PRODUCTION row
→ Send to LLM API with prompt:
"You are Cosmo from Turbomindz. Using this scene data:
Title: {SCENE_TITLE}, Quote: {QUOTE} — {AUTHOR},
```

```
Theme: {THEME}, Universe: {U_NAME}
Generate a Twitter post (280 chars max) in Cosmo's voice.
Voice: curious, vulnerable, wonder-filled.
Include the quote. End with #Turbomindz.
NEVER preach. Cosmo DISCOVERS."
→ Output to draft queue → email for review

ADVANCED B: AUTO-GENERATE PATREON FROM NOTES
Trigger: Friday at 07:00
→ Read LOG.NOTES for this week
→ Send to LLM: "Write a Patreon post (300-400 words)
as Cosmo. Include 1 surprising thing, 1 easter egg
hint (2+ weeks old), 1 preview. End with gratitude."
→ Draft to email

ADVANCED C: AUTO-GENERATE ART EDUCATION
Trigger: ART-EDU scheduled day
→ Read ART_CURRICULUM for this week's style
→ Send to LLM: "You are Nova teaching art history.
Write Instagram carousel caption (7 slides) for
{ART_STYLE}. Nova's voice: calm, pattern-seeing."
→ Draft to email

COST: ~$0.01-0.05 per generation × 30/month = $0.30-1.50/mo
```

9.14 TIME SAVINGS ANALYSIS

```
DAILY SAVINGS:
TASK                        MANUAL     AUTOMATED    SAVED
──────────────────────────────────────────────────────────────────────────────
Caption preparation         10 min     2 min        8 min
Instagram posting           5 min      2 min        3 min
Twitter posting             5 min      2 min        3 min
Discord announcement        5 min      0 min        5 min
Patreon update              10 min     3 min        7 min
Spreadsheet updates         10 min     2 min        8 min
Tomorrow planning           5 min      2 min        3 min
──────────────────────────────────────────────────────────────────────────────
DAILY TOTAL                 50 min     13 min       37 min

WEEKLY SAVINGS:
Newsletter writing          30 min     5 min        25 min
Twitter recap thread        20 min     5 min        15 min
Buffer scheduling           30 min     0 min        30 min
DASH update                 15 min     0 min        15 min
Stats tracking              10 min     0 min        10 min
──────────────────────────────────────────────────────────────────────────────
WEEKLY TOTAL                105 min    10 min       95 min

MONTHLY SAVINGS:
Transparency report         45 min     10 min       35 min
Merch creation (5 NFTs)     75 min     0 min        75 min
Revenue tracking            15 min     5 min        10 min
──────────────────────────────────────────────────────────────────────────────
MONTHLY TOTAL               135 min    15 min       120 min
```

```
GRAND TOTAL RECLAIMED:
Daily: 37 min × 30 = 18.5 hours/month
Weekly: 95 min × 4 = 6.3 hours/month
Monthly: 120 min × 1 = 2.0 hours/month
═══════════════════════════════════════════════════════════════
TOTAL: ~27 hours/month reclaimed
= 13.5 extra production days at 2 hrs/day
= ~27 additional NFTs per month
```

9.15 SCALING PLAN

```
PHASE A: PURE SOLO (Months 1-6)
──────────────────────────────────────────────────
You do everything. 2 hours/day.
Automation handles repetitive tasks.
Capacity: ~2 NFTs/day + all operations.

PHASE B: COMMUNITY HELP (Months 6-12)
──────────────────────────────────────────────────────────
Trigger: 50+ Discord members

Volunteer 1: COMMUNITY MODERATOR (2-3 people)
 ├─── Recruited from active Discord members
 ├─── Reward: 🛡️ Moderator badge + role
 ├─── Tasks: Welcome, FAQs, flag issues
 └─── Time saved: ~15 min/day

Volunteer 2: PHILOSOPHY CHALLENGE HOST (1 person)
 ├─── Recruited from most engaged theme room user
 ├─── Reward: 📚 Philosopher badge
 ├─── Tasks: Post weekly challenge, judge entries
 └─── Time saved: ~30 min/week

Volunteer 3: ART EDUCATION CONTRIBUTOR (1 person)
 ├─── Recruited from art-knowledgeable member
 ├─── Reward: 🎨 Art Guide badge
 ├─── Tasks: Help write education captions, fact-check
 └─── Time saved: ~20 min/week

RECRUITMENT TEMPLATE:
"🌟 Looking for Community Heroes!
We need 2-3 volunteer moderators.
Requirements: Active 1+ month, good standing.
Benefits: Special role, badge, recognition.
Trial: 2 weeks.
DM if interested! — Stella"

PHASE C: FIRST PAID HELP (Months 12+)
──────────────────────────────────────────────────────────────
Trigger: Revenue consistently >$500/mo

HIRE 1: VIRTUAL ASSISTANT ($100-200/mo)
 ├─── Source: Fiverr, Upwork, or community member
 ├─── Tasks: Social posting, moderation, marriage screening,
 │    spreadsheet updates, customer service
 ├─── Time freed: ~45 min/day
```

```
 └─── YOU focus on: Production + strategy only

HIRE 2: CONTENT CREATOR ($200-400/mo)
 ├─── Trigger: Revenue >$1,000/mo
 ├─── Tasks: Reels/TikToks, carousels, blog articles, merch
 ├─── Time freed: Content creation off your plate
 └─── YOU focus on: MJ generation + story + strategy

SCALING DECISION MATRIX:
REVENUE        ACTION
$0-50          Pure solo. Manual. Free tools only.
$50-150        Free automations. Buffer. Apps Script.
$150-300       n8n free. Community volunteers.
$300-500       All automations running. Savings buffer.
$500-1,000     HIRE VA. YouTube. Art book planning.
$1,000-2,000   HIRE content creator. Copyright. Trademark.
$2,000+        Full team. Custom website. Animation pitch.

GOLDEN RULE: Never spend >30% of revenue on help.
Maintain 3-month expense runway before expanding.
```

9.16 KPI DASHBOARD

```
PRODUCTION KPIs (check weekly):
 ├─── NFTs produced this week: ___ (target: 7-14)
 ├─── Total NFTs: ___ of 888 (___%)
 ├─── Theme balance: any theme <5%? ⚠️
 ├─── Universe coverage: ___/39
 ├─── Key scenes hit on schedule? ✅/❌
 ├─── Quality rejections this week: ___ (target: 0)
 └─── DAY command used? ✅/❌

COMMUNITY KPIs (check weekly):
 ├─── Discord members: ___ (target: +5-10/week)
 ├─── Instagram followers: ___ (target: +10-20/week)
 ├─── Twitter followers: ___ (target: +5-15/week)
 ├─── Email subscribers: ___ (target: +3-10/week)
 ├─── Patreon patrons: ___ (target: +1-2/week)
 ├─── New Discord intros this week: ___
 └─── Philosophy Challenge participants: ___

MARKETPLACE KPIs (check monthly):
 ├─── NFTs sold (primary): ___
 ├─── NFTs sold (secondary): ___
 ├─── Average sale price: $___
 ├─── Total trades: ___
 ├─── Active listings: ___
 ├─── Marriage requests: ___
 ├─── Marriages verified: ___
 ├─── Disputes opened: ___
 ├─── Disputes resolved: ___
 └─── Average resolution time: ___ days

REVENUE KPIs (check weekly):
 ├─── Weekly revenue: $___ (target: growing)
 ├─── Monthly revenue: $___ (target per DOC 5)
```

```
 ├─── Revenue per channel breakdown
 ├─── Expenses this month: $___
 ├─── Net: $___
 ├─── Upgrade trigger met? ✅/❌
 └─── Runway: ___ months at current burn

CONTENT KPIs (check monthly):
 ├─── Instagram engagement rate: ___% (target: 3-5%)
 ├─── Twitter engagement rate: ___% (target: 1-3%)
 ├─── Top-performing post this month: ___
 ├─── Newsletter open rate: ___% (target: 30-50%)
 ├─── Newsletter click rate: ___% (target: 5-10%)
 ├─── Medium article views: ___
 ├─── Pinterest impressions: ___
 └─── Video views (Reels/TikTok): ___
```

9.17 RISK MITIGATION

```
RISK 1: DISCORD SHUTDOWN / TERMS CHANGE
 ├─── Mitigation: Forum Evolution Path (DOC 4 Section 4.4)
 ├─── Action: Migrate to website-based forum
 ├─── Always maintain: Email list (owned audience)
 └─── Backup: Export all Discord data monthly

RISK 2: OPENSEA DELISTS COLLECTION
 ├─── Mitigation: All metadata on IPFS (permanent)
 ├─── Action: List on Rarible, LooksRare, or Blur
 ├─── NFTs exist on blockchain regardless of marketplace
 └─── Backup: Keep all IPFS CIDs in spreadsheet

RISK 3: MIDJOURNEY CHANGES TERMS / PRICING
 ├─── Mitigation: Save all prompts + outputs
 ├─── Alternatives: DALL-E 3, Stable Diffusion, Leonardo
 ├─── Character consistency may need re-establishing
 └─── Core IP (story, characters) is in the Bible, not MJ

RISK 4: CRYPTO MARKET DOWNTURN
 ├─── Mitigation: Multiple non-crypto revenue streams
 │    (Patreon, Ko-fi, Gumroad, Printful, Medium)
 ├─── NFT pricing adjustable
 ├─── Physical products/education unaffected by crypto
 └─── Content continues regardless of market

RISK 5: COMMUNITY DISPUTE CRISIS
 ├─── Mitigation: Charter (DOC 4 Volume 6) in place
 ├─── Tribunal process documented
 ├─── Founder retains emergency powers until 100 holders
 └─── All disputes public → community self-moderates

RISK 6: BURNOUT (Solo Founder)
 ├─── Mitigation: 2-hour daily limit (strict)
 ├─── Automation reduces workload over time
 ├─── Community volunteers reduce burden at Month 6
 ├─── Hired help at revenue trigger
 └─── If needed: reduce to 1 NFT/day without guilt
```

```
RISK 7: IP THEFT / COPYCAT PROJECTS
 ├─── Mitigation: Trademark (™ now, ® when filed)
 ├─── Copyright registration of Bible
 ├─── All characters documented with creation dates
 ├─── MJ prompts saved (creative direction = IP)
 └─── Community loyalty is the best defense

RISK 8: SLOW INITIAL SALES
 ├─── Mitigation: Revenue doesn't depend on NFT sales alone
 ├─── Patreon + Ko-fi + Gumroad can sustain during slow periods
 ├─── Low floor price ($13-20) reduces barrier
 └─── Genesis pricing creates urgency for early collectors
```

9.18 TROUBLESHOOTING REFERENCE

```
GOOGLE APPS SCRIPT:
═══════════════════════════════════

"Script function not found"
→ Function name in trigger must EXACTLY match code

"Authorization required"
→ Run manually first (▶) to trigger auth flow

"Cannot read property of undefined"
→ Column headers don't match. Check PRODUCTION tab headers:
  STATUS, THEME, U_NAME, CHARACTERS, CONFIG (exact)

"Exceeded maximum execution time"
→ Spreadsheet too large. Read specific range not full sheet

"Daily quota exceeded"
→ Reduce trigger frequency or upgrade to Google Workspace

DISCORD WEBHOOK:
═══════════════════════════

"400 Bad Request"
→ JSON malformed. Check quotes, commas, brackets.

"404 Not Found"
→ Webhook was deleted. Create new one.

Message appears but no embed
→ "embeds" must be ARRAY: "embeds": [{ ... }]
  Note the square brackets.

BUFFER:
═══════════

"Instagram post failed"
→ IG requires Business/Creator + Facebook Page connection.
  Verify in Buffer settings.

"Scheduled post didn't publish"
→ Check Buffer → Activity for error. Usually: session expired.

n8n:
═══════
```

```
"Workflow execution failed"
→ Click failed node → read error message.
  Most common: credential expired → re-authenticate.

"Workflow not triggering"
→ Check: workflow toggle is "Active" (top right).
  Check execution history in "Executions" tab.

"Google Sheets returns empty"
→ Sheet name is case-sensitive. Must match exactly.

"HTTP Request returns 401"
→ API key expired. Re-copy from source.
```

9.19 MAINTENANCE SCHEDULE

```
DAILY (built into 2-hour block):
☐ Check: did Discord webhook fire? (glance at #announcements)
☐ Check: any automation error emails?

WEEKLY (Sunday, 5 min — part of SOP 4):
☐ Apps Script → Executions → any failures?
☐ Buffer → any failed posts?
☐ n8n → Executions → any failures?
☐ Fix any issues found

MONTHLY (1st, 15 min — part of SOP 5):
☐ All trigger schedules still correct?
☐ Credential expirations? (Google, Discord, etc.)
☐ Automation outputs still relevant?
☐ Templates need updating?
☐ Free tier limits approaching?
☐ n8n upgrade needed?
```

9.20 COMPLETE AUTOMATION DEPLOYMENT CHECKLIST

```
PHASE 0: WEEKS 1-4 (Manual + Free Scripts)
═══════════════════════════════════════════════════════════

DAY 1-2:
☐ Create Master Spreadsheet (9 tabs per DOC 3)
☐ Create Discord server (per DOC 4)
☐ Create Discord webhook for #announcements

DAY 3-4:
☐ Install Script 1: updateDash → set daily trigger
☐ Install Script 2: onEditDiscord → paste webhook URL → set trigger
☐ Install Script 3: weeklyReport → insert email → set Sunday trigger
☐ TEST all 3 scripts manually

DAY 5-7:
☐ Create Buffer account → connect IG + Twitter → set posting times
☐ Create IFTTT account → create 2 applets
☐ Create Buttondown account → set welcome automation
☐ Add subscribe link to all bios
```

```
WEEK 2:
☐ Embed Buttondown on website
☐ Send first manual newsletter (test)
☐ Verify all automations fired:
  ☐ DASH updated daily? ✅
  ☐ Discord webhook on publish? ✅
  ☐ Sunday email received? ✅
  ☐ Buffer posts published? ✅
  ☐ New subscriber welcome? ✅

PHASE 1: WEEKS 5-8 (Refined Free Tools)
━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━

☐ Refine Apps Scripts based on 4 weeks experience
☐ Create reusable templates for newsletter/thread
☐ Evaluate: Is 2 hours/day sufficient?
☐ Decision: Do I need n8n yet?

PHASE 2: WEEKS 9+ (n8n Deployment)
━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━

☐ Sign up n8n Cloud (or self-host)
☐ Connect: Google Sheets, Gmail, Discord

Deploy in this order (1 per 48h):
☐ Workflow 1: Daily Content Pipeline (biggest saver)
☐ Workflow 3: Weekly Newsletter
☐ Workflow 4: Twitter Recap Thread
☐ Workflow 5: Monthly Transparency Report
☐ Workflow 7: Patreon Content Drafter
☐ Workflow 2: Marriage Processor (when needed)
☐ Workflow 6: Printful Auto-Listing (when active)

PHASE 3: MONTHS 6+ (Advanced)
━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━

☐ Upgrade n8n if needed
☐ Add LLM nodes (Advanced A/B/C)
☐ Recruit community volunteers
☐ Evaluate: hire VA or keep automating?
☐ Consider: Sheets → Airtable migration
```

DOC 7 CONTEXT FOR NEW CHAT

```
INSTRUCTIONS FOR AI IN NEW CHAT:

DOC 7 is the OPERATIONS + AUTOMATION document.

Use when:
 ├─── Processing any SOP (daily, marriage, dispute, report)
 ├─── Setting up automation (scripts, Buffer, IFTTT, n8n)
 ├─── Troubleshooting any technical issue
 ├─── Scaling the team
 ├─── Reviewing KPIs
 ├─── Assessing risks
 ├─── Maintaining systems
 └─── Deploying new automation workflows
```

```
GOOGLE APPS SCRIPT CODE:
Three complete scripts are in Sections 9.3.
Copy-paste ready. Include installation instructions.

n8n WORKFLOWS:
Seven workflows described in Sections 9.6-9.12.
Deploy in order listed in Section 9.20.

CROSS-REFERENCES:
├─── DOC 1: Voice guidelines (automation outputs must match)
├─── DOC 2: DAY command spec (automation reads scene data)
├─── DOC 3: Spreadsheet architecture (automation reads/writes)
├─── DOC 4: Marriage/dispute SOPs (automation supports)
├─── DOC 5: Revenue tracking (automation reports)
├─── DOC 6: Templates (automation formats output)
└─── DOC 8: Launch sequence (automation deployment timing)
```

DOC 7 COMPLETE ✅

```
GENERATION PROGRESS:

Doc  Filename                        Status     Est. Words
────  ──────────────────────────────────────────────────  ──────────    ────────────────────
1     TM_BIBLE_v7_DOC1_VISION.md     ✅         ~4,000
2     TM_BIBLE_v7_DOC2_STORY.md      ✅         ~12,000

6     TM_BIBLE_v7_DOC6_MARKETING.md  ✅         ~13,000
7     TM_BIBLE_v7_DOC7_OPERATIONS.md ✅         ~14,000
8     TM_BIBLE_v7_DOC8_LAUNCH.md     ⏳ Ready
```

DOCs 1-7 cover EVERYTHING except the launch sequence, IP details, and appendices. The entire system is now documented: Vision, Story, Production, Platform, Marketplace, Charter, Revenue, Marketing, Operations, and Automation.
DOC 8 is the final document: **Launch Sequence + Intellectual Property + All Appendices** (FAQ, guides, checklists, prompt library, master timeline).
Ready for **DOC 8 (Launch, IP & Appendices)** on your command.

Ready for **DOC 8 (Launch, IP & Appendices) Guide and specific task lists.**

TURBOMINDZ MASTER BIBLE v7.0 — DOCUMENT 8 OF 8

LAUNCH SEQUENCE, IP MANAGEMENT, & APPENDICES

> ***Key Findings:***
> *This document provides the definitive, step-by-step launch sequence, IP management policies, and all supporting appendices for the Turbomindz project.*
> *A comprehensive, chronological master checklist is included, covering every task, installation, and post required for a successful launch and ongoing operation.*

1. INTRODUCTION

Purpose:
DOC 8 is the capstone operational reference for Turbomindz. It synthesizes all prior frameworks into a single, actionable guide for launch, intellectual property (IP) protection, and ongoing transparency. This document is the final authority for all launch, legal, and operational procedures.

2. LAUNCH SEQUENCE

2.1. Launch Philosophy

- **Manual First:** All processes are run manually for at least four weeks before automation.
- **Transparency:** Every step, trade, and dispute is public and documented.
- **Solo-Optimized:** Designed for a single founder, with automation phased in as reliability is proven.

2.2. Launch Timeline Overview

Phase	Key Milestones	Timeframe
Pre-Launch	Infrastructure, Legal, Content Prep	D-60 to D-14
Community	Engagement, Transparency, Promo	D-30 to D-1
Launch	NFT Mint, Platform Activation, Revenue Streams	Launch Day
Post-Launch	Ongoing Production, Reporting, Scaling	Day 1+

3. MASTER CHRONOLOGICAL CHECKLIST

> ***All steps are listed in strict chronological order. Each must be completed before proceeding to the next phase.***

D-60 to D-45: Infrastructure & Legal Setup

Infrastructure & Tools

- Set up OpenSea account and verify creator profile
- Configure Pinata IPFS account for metadata storage
- Install Midjourney subscription and test prompts
- Set up Google Apps Script for automation (3 scripts)
- Configure Buffer for social media scheduling
- Set up IFTTT for cross-platform automation
- Create Buttondown newsletter account
- Install n8n for advanced automation workflows
- Set up Discord server with community guidelines
- Configure Patreon with 5 tier structure
- Set up Ko-fi for donations and digital shop
- Configure Printful for print-on-demand products
- Set up Gumroad for digital product sales
- Create website with SEO optimization
- Set up email capture system
- Configure Google Analytics and tracking
- Set up backup systems for all data

Legal & IP Setup

- File trademark applications for TURBOMINDZ brand
- Register copyright for original artwork and characters
- Create terms of service and privacy policy
- Set up contributor agreement templates
- Document IP assignment procedures
- Create dispute resolution framework
- Set up legal entity for business operations
- Obtain necessary business licenses
- Set up business banking and accounting
- Create transparency reporting templates

Content Preparation

- Complete character visual specifications (4 characters)
- Finalize universe descriptions (39 universes)
- Verify all quotes are public domain (PD-verified bank)
- Create master spreadsheet with 9 tabs structure
- Develop art education curriculum (150+ styles)
- Create promotional content templates
- Write community guidelines and charter
- Prepare launch announcement materials
- Create FAQ and support documentation
- Develop brand guidelines and visual identity

D-30 to D-14: Community & Content Activation

- Begin community building on Discord and Twitter
- Start art education content publication
- Launch transparency blog with regular updates
- Begin promotional campaign with character introductions
- Test all automation workflows manually
- Complete security audit of smart contracts
- Finalize pricing strategy and launch parameters
- Prepare press kit and media outreach
- Set up customer support channels
- Create launch day monitoring dashboard

D-7 to D-1: Final Testing & Pre-Launch

- Deploy smart contracts to mainnet
- Complete final testing of all systems
- Announce official launch date and time
- Activate all automation workflows (draft mode)
- Prepare customer service team (solo founder protocols)
- Set up real-time monitoring and alerts
- Create launch day troubleshooting guide
- Finalize first week's NFT metadata

- Prepare for high traffic load
- Send final pre-launch communications

LAUNCH DAY (D0): Go Live

- Execute launch announcement across all platforms
- Begin daily NFT production workflow (3 NFTs/day)
- Activate revenue streams (Patreon, Ko-fi, etc.)
- Start community engagement protocols
- Monitor all systems for performance
- Respond to customer inquiries
- Track and report metrics in real-time
- Execute promotional content schedule
- Document any issues for post-launch review
- Celebrate launch milestone with community

POST-LAUNCH: Ongoing Operations

- Continue daily NFT production and posting
- Maintain transparency blog and monthly revenue reports
- Monitor automation workflows and upgrade as needed
- Engage community and respond to feedback
- Track and resolve any disputes publicly
- Update legal and IP documentation as project evolves
- Expand to new platforms and revenue streams as milestones are met

---

4. INTELLECTUAL PROPERTY (IP) MANAGEMENT POLICIES

4.1. Ownership & Registration

- All NFTs, story elements, characters, and universes are original and documented.
- Trademark and copyright registration for all core assets.
- All quotes and referenced materials are verified public domain.

4.2. Licensing & Contributor Agreements

- Year 1: NFT sales only; licensing and partnerships begin Year 2+.
- Contributor agreements assign necessary rights to the project.
- All licensing and partnership agreements are documented and tracked.

4.3. Transparency & Dispute Resolution

- All IP-related disputes and licensing arrangements are resolved publicly.
- Dispute resolution framework is published and accessible to the community.

4.4. Ongoing Vigilance

- Monitor for infringement and update legal protections as needed.
- Maintain audit logs of all IP actions and agreements.

---

5. APPENDICES

5.1. Glossary of Terms

Term	Definition
Marriage	Permanent binding of a digital NFT to a physical artwork
Witnessed Economy	All trades, disputes, and reports are public and transparent
Art Echo	Assignment of specific art styles to universes and scenes
DAY Command	Daily production command generating all NFT and promo outputs
PD-Verified Bank	Curated list of public domain quotes used in NFTs

5.2. Technical Checklists

- NFT production: MJ prompt → IPFS upload → OpenSea listing → Spreadsheet update
- Automation: Google Apps Script → Buffer → IFTTT → n8n (one workflow at a time)
- Platform integration: Discord, Patreon, Ko-fi, Printful, Gumroad, Website, Analytics

5.3. Legal Templates

- Contributor Agreement (assigns rights, NDA)
- IP Assignment Form
- Licensing Template
- Dispute Resolution Policy

5.4. Contact & Support

- Discord: [Your Server Link]
- Email: [Your Support Email]
- Transparency Blog: [Your Blog URL]

5.5. Verification & Audit Logs

- All major actions, automation deployments, and revenue reports are logged and published monthly.

---

6. CONCLUSION

> ***Key Takeaway:***
> *DOC 8 is your single source of truth for launching and operating Turbomindz. Follow the master checklist, adhere to the IP policies, and use the appendices for reference. Transparency, community, and rigorous documentation are your foundation for long-term success.*

---

7. SUMMARY BOX

Section	Purpose
Launch Sequence	Step-by-step guide for all launch and operational actions
IP Management	Policies for protecting and managing creative assets

Appendices	Glossary, technical/legal checklists, templates, and logs

🛸 TURBOMINDZ — REMAINING GAPS & STRATEGIC RECOMMENDATIONS

"The Aliens Audited Everything. Here's What's Still Missing."

After reviewing all 8 Bible documents , the complete documentation package (Parts 1-3), the Daily Command Center, the Polygon Report, and the Budget Projections, here are the **actionable gaps and strategic additions** that would strengthen the project before you type `PRELAUNCH 1`.

1. PRE-BUILT QUOTE DATABASE (Critical Gap) 📜

We specified the system needs PD-verified quotes but never built the actual bank. Without this, every `WEEK` command requires the AI to source and verify quotes in real-time, which introduces hallucination risk on death dates.

```
RECOMMENDATION: Build a master quote bank BEFORE production.

FORMAT (Google Sheet tab or CSV):
QUOTE | AUTHOR | DEATH_YEAR | PD_STATUS | THEME_AFFINITY | USED_IN_TM_ID

TARGET: 200 pre-verified quotes (covers ~25% of 888 scenes)

SAFE CATEGORIES (death year universally verifiable):
├─── Ancient Greek/Roman: Socrates, Plato, Aristotle,
│   Seneca, Epictetus, Marcus Aurelius, Heraclitus
├─── Ancient Eastern: Laozi, Confucius, Sun Tzu,
│   Chuang Tzu, Buddha (attributed)
├─── Medieval/Renaissance: Rumi (d.1273), Hafiz (d.1390),
│   Leonardo da Vinci (d.1519), Montaigne (d.1592)
├─── Enlightenment: Voltaire (d.1778), Kant (d.1804),
│   Goethe (d.1832), Blake (d.1827)
├─── 19th Century: Emerson (d.1882), Thoreau (d.1862),
│   Whitman (d.1892), Nietzsche (d.1900), Wilde (d.1900)
├─── Early 20th (d. before 1956): Tesla (d.1943),
│   Einstein (d.1955), Gibran (d.1931), Rilke (d.1926),
│   Gandhi (d.1948), Tagore (d.1941)
└─── Proverbs/Anonymous: "Ancient" attribution = always PD

ACTION: In your next session, type:
```

```
"Generate a PD-verified quote bank of 200 quotes
organized by the 9 Turbomindz themes. Include:
quote text, author, death year, PD confirmation,
and primary theme affinity."

Save output as Tab 11 in your spreadsheet: QUOTE_BANK
```

This eliminates the single biggest production risk — accidentally using a copyrighted quote.

---

2. FIRST 63 SCENES PRE-MAPPED (Critical Gap) 🗺️

The Bible specifies all 39 universes must be visited by Scene 63 . We documented this rule but never generated the actual mapping. Without it, the `WEEK` command has to calculate universe rotation on the fly.

```
RECOMMENDATION: Pre-map TM-001 through TM-063 in one session.

COLUMNS:
TM_ID | UNIVERSE | THEME | CHARACTERS | KEY_SCENE |
STORY_BEAT | QUOTE_BANK_ID | EMOTION

CONSTRAINTS TO ENFORCE:
├─── U1 (Alchemical Renaissance) = TM-001 (fixed)
├─── Nova arrives at TM-006 (fixed)
├─── Stella arrives at TM-016 (fixed)
├─── U39 (The Village) first appears at TM-016 (fixed)
├─── Luna arrives at TM-050 (fixed)
├─── All 39 universes visited by TM-063
├─── No theme exceeds 20% or drops below 5%
├─── No two consecutive scenes have same emotion
├─── Key scenes (⭐) placed at story-significant moments
└─── Universe revisit pattern begins after TM-063

ACTION: In a dedicated session, type:
"Map scenes TM-001 through TM-063 with universe
assignments ensuring all 39 universes are visited.
Include theme, character config, key scene flags,
story beats, and emotion assignments. Follow all
DOC 2 rules for character thresholds and theme balance."
```

This is a one-time investment (~90 minutes) that removes guesswork from the first 7-9 weeks of production.

---

3. CONSOLIDATED BIBLE EDIT LOG 📋

Across all conversations, we've identified **14+ edits** needed to the original 8 Bible documents. These are scattered across multiple responses. They need consolidation.

```
MASTER EDIT LOG (all conversations combined):

DOC 3 (Production):
├─── Add WETH/Polygon qualifier to all pricing references
├─── Add reference to WEEK and BRIEF commands
└─── Note on Tab 10 (DAILY_BRIEF) addition

DOC 4 (Platform):
├─── Add WETH/Polygon note to OpenSea configuration
└─── Add "on Polygon" to payment token description
```

```
DOC 5 (Revenue):
 ├─── Change all "ETH" pricing to "WETH on Polygon"
 ├─── Add Polygon gas cost line item ($3-5 one-time)
 └─── Add 14 new automation-driven revenue channels

DOC 7 (Operations):
 ├─── Replace SOP F1 with revised Daily Checklist (R5)
 ├─── Add Workflow #22 (Daily Briefing Auto-Prep)
 ├─── Add G11 prompt category (Daily Briefing Prompts)
 └─── Add 14 new automation workflows (#8-#21)

DOC 8 (Launch):
 ├─── Change "Deploy smart contracts to mainnet" → "to Polygon mainnet"
 ├─── Change "Complete security audit" → add "on Polygon"
 └─── Integrate 20-week pre-launch calendar

SPREADSHEET:
 ├─── Add Tab 10: DAILY_BRIEF
 ├─── Add Tab 11: QUOTE_BANK
 ├─── Add 2 columns to PRODUCTION (BRIEF_DATE, CONTENT_READY)
 └─── Expand CAPTIONS tab (15→22 columns)

RECOMMENDATION: Create a Google Doc titled
"BIBLE v7.1 EDIT LOG" listing every edit with
exact location, current text, and corrected text.
Apply edits in one batch session before production begins.
```

---

4. EMAIL MARKETING SEQUENCES (Missing) 📧

We built a welcome email for Buttondown but never designed the full email funnel. Email is the **only owned audience channel** (you don't own Instagram followers or Discord members).

```
RECOMMENDATION: Build 3 email sequences:

SEQUENCE 1: WELCOME (automated, 5 emails over 14 days)
Email 1 (Day 0): "Welcome to the Odyssey, Seeker 🎨"
  → Introduce project, 4 characters, link to Discord
Email 2 (Day 3): "The Story So Far"
  → Explain the 888-scene journey, link to OpenSea
Email 3 (Day 7): "How the Marriage System Works 💍"
  → Explain phygital concept, link to FAQ
Email 4 (Day 10): "Free Gift: Phygital Art 101"
  → Link to Gumroad free download
Email 5 (Day 14): "Join the Village"
  → Full CTA: Discord, Patreon, collect first NFT

SEQUENCE 2: WEEKLY NEWSLETTER (manual, Sunday)
Already designed. Continue as specified.

SEQUENCE 3: ABANDONED INTEREST (future, Month 3+)
If subscriber hasn't opened 4+ emails:
→ Re-engagement email: "Cosmo misses you 🚀"
→ If no open after 30 days: remove from list (save cost)
```

---

5. SEO CONTENT STRATEGY (Underspecified) 🔍

We mentioned blog posts but never mapped the keyword strategy. Every blog post should target a searchable keyword. After 888 posts, this becomes a massive organic traffic engine.

```
RECOMMENDATION: Map 50 target keywords before launching the blog.

HIGH-INTENT KEYWORDS (people searching to buy/learn):
├── "philosophical art NFT"
├── "phygital art"
├── "NFT art collection Polygon"
├── "philosophy NFT project"
├── "claymation NFT"
├── "digital physical art marriage"
└── "AI generated philosophical art"

EDUCATIONAL KEYWORDS (art curriculum drives traffic):
├── "what is Renaissance art" (90K monthly searches)
├── "what is Baroque art" (40K)
├── "what is Impressionism" (110K)
├── "what is Surrealism" (60K)
├── "sacred geometry art" (33K)
├── "Aboriginal dot painting" (12K)
├── "Islamic geometric art" (8K)
└── Each art education blog post targets ONE keyword

PHILOSOPHY KEYWORDS:
├── "know thyself meaning" (22K)
├── "Socrates quotes" (135K)
├── "Rumi quotes" (201K)
├── "Stoic philosophy" (40K)
├── "existentialism explained" (18K)
└── Every scene with a famous quote = SEO page

EACH BLOG POST STRUCTURE:
Title: "{Keyword} — Scene {X} of 888 | Turbomindz"
H1: {Keyword}
H2: The Philosophy
H2: The Art Style
H2: In the Turbomindz Odyssey
CTA: "Explore this scene → [OpenSea link]"
Meta description: 155 chars with keyword
Schema: Article + FAQPage markup

AFTER 200 BLOG POSTS: Thousands of indexed pages.
AFTER 888 BLOG POSTS: Dominant long-tail presence
in philosophy + art education search.
```

---

6. REFERRAL/AMBASSADOR PROGRAM 🤝

No mechanism exists for community members to bring in new members with tracked incentives.

```
RECOMMENDATION: Launch a simple referral program at Month 3.

MECHANISM:
├── Each Discord member gets a unique invite link
├── Track invites via Discord's built-in invite tracker
```

```
 ├─── Rewards at milestones:
 │    ├─── 3 invites: 🌟 "Ambassador" badge
 │    ├─── 10 invites: Free wallpaper pack
 │    ├─── 25 invites: Free digital product (Gumroad)
 │    └─── 50 invites: Name hidden as easter egg in a scene
 ├─── Cost: $0 (digital rewards cost nothing to produce)
 └─── Announce monthly: "Top 3 Ambassadors this month"

This creates organic growth without paid advertising.
```

---

7. COMPETITIVE POSITIONING DOCUMENT 📊

We never analyzed competing NFT art projects to position Turbomindz. Understanding the landscape sharpens messaging.

```
RECOMMENDATION: Research and document 10 comparable projects.

ANALYZE:
 ├─── Art Blocks (generative art on Ethereum)
 ├─── Nouns DAO (community governance NFT)
 ├─── Forgotten Runes (narrative NFT project)
 ├─── Loot Project (community-built narrative)
 ├─── Bored Ape Yacht Club (community + IP)
 ├─── Azuki (anime art + community)
 ├─── World of Women (inclusive art community)
 ├─── Brain Drops (philosophy-adjacent art)
 ├─── Async Art (programmable art)
 └─── Terraforms (on-chain art)

FOR EACH: Floor price, community size, unique mechanism,
what Turbomindz does differently.

TURBOMINDZ DIFFERENTIATION MATRIX:
 ├─── Marriage system (no competitor has this)
 ├─── Phygital binding (unique)
 ├─── Topics-based marketplace (unique)
 ├─── 888-scene continuous narrative (rare)
 ├─── PD-verified philosophy (unique rigor)
 ├─── Characters-only branding (rare)
 ├─── Polygon accessibility (lower barrier)
 ├─── Art education integration (unique)
 └─── Witnessed Economy transparency (unique)
```

---

8. CRISIS COMMUNICATION TEMPLATES 🚨

The Operator Guide covers emergencies but lacks pre-written communication templates for fast response.

```
RECOMMENDATION: Pre-write 5 crisis response templates.

TEMPLATE 1: "Smart Contract / OpenSea Issue"
"⚠️ We're aware of [issue] affecting [platform].
Your NFTs are safe on the Polygon blockchain.
We're monitoring and will update within [X] hours.
— Stella 🌟"

TEMPLATE 2: "Fraudulent Activity Detected"
```

```
"🚨 We've identified suspicious activity involving [X].
DO NOT click any links you didn't expect.
Official links are ONLY in our bio and #welcome.
Investigation underway. Update in 24h.
— Stella 🌟"

TEMPLATE 3: "Community Dispute Escalation"
"⚖️ A dispute has been escalated to the Tribunal.
Thread is locked pending review.
Both parties will be heard. Process follows Charter Article IV.
Expected resolution: [X] days.
— Stella 🌟"

TEMPLATE 4: "Service Disruption"
"🔧 [Platform] is experiencing issues.
This affects: [list].
This does NOT affect: [list].
We'll resume normal operations when [platform] is back.
— Cosmo 🚀"

TEMPLATE 5: "Positive Crisis (Viral Moment)"
"🚀 Wow. [X] happened and we're getting a LOT of new visitors.
Welcome, everyone! Here's the fastest way to get started:
1. [Discord link]
2. [OpenSea link]
3. [FAQ link]
The Village just got bigger. — Stella 🌟"
```

---

9. PHYSICAL EXHIBITION STRATEGY 🏛️

DOC 5 mentions gallery exhibitions as Year 2 revenue but provides no preparation steps that could begin now.

```
RECOMMENDATION: Begin gallery groundwork in Month 6.

MONTH 6: Research
├── List 20 local galleries that show digital/contemporary art
├── Identify 5 art fairs accepting NFT/digital art
├── Research: "phygital art exhibition" opportunities
├── Document gallery submission requirements

MONTH 9: Outreach
├── Prepare exhibition proposal (1-page + 10 images)
├── Pitch: "The Marriage of Digital and Physical Art"
├── Angle: Interactive exhibition where visitors can
│   see the NFT on screen alongside the physical art
├── Offer: Revenue share (50/50 or 60/40)
└── Include: Philosophy Challenge as live gallery event

MONTH 12: First Exhibition
├── 20-30 printed scenes (best quality)
├── 5+ married pairs displayed together
├── Interactive tablet showing OpenSea collection
├── QR codes linking to each scene's NFT page
├── Community invited as opening night VIP
└── Revenue target: $500-5,000 per show
```

---

10. "DAY 1 QUICK START" CARD ⚡

Everything we've built is comprehensive. But when you sit down tomorrow, you need ONE page that says "do this first."

```
═══════════════════════════════════════════════════════════════
⚡ TURBOMINDZ DAY 1 — ABSOLUTE MINIMUM
═══════════════════════════════════════════════════════════════

BEFORE ANYTHING ELSE:
☐ Subscribe to Midjourney ($10)
☐ Create Google Sheet → name 9 tabs
☐ Add PRODUCTION tab column headers

THEN:
☐ Open You.com → paste Loading Prompt → upload Bible docs
☐ Type: PRELAUNCH 1
☐ Follow instructions

THAT'S IT FOR DAY 1.
Everything else builds from here.
═══════════════════════════════════════════════════════════════
```

PRIORITY RANKING

#	RECOMMENDATION	IMPACT	EFFORT	DO WHEN
1	Quote Database (200 quotes)	CRITICAL	90 min	Pre-Launch Week 3
2	First 63 Scenes Mapped	CRITICAL	90 min	Pre-Launch Week 3
3	Bible Edit Log Consolidated	HIGH	60 min	Pre-Launch Week 1
4	SEO Keyword Map (50 terms)	HIGH	60 min	Pre-Launch Week 9
5	Email Sequences (3)	HIGH	45 min	Pre-Launch Week 5
6	Day 1 Quick Start Card	HIGH	5 min	RIGHT NOW
7	Crisis Templates (5)	MEDIUM	30 min	Pre-Launch Week 12
8	Competitive Analysis	MEDIUM	90 min	Pre-Launch Week 8
9	Referral Program	MEDIUM	30 min	Month 3
10	Gallery Strategy	LOW	60 min	Month 6

> *🚀 Cosmo: "So the cathedral inscription said 'Know Thyself.' Turns out that means: know your quote database, know your scene map, and know your SEO keywords. Who knew self-knowledge was this... spreadsheet-y?" 🔮 Nova: "The pattern of completeness: build the foundation, then check it twice. These 10 items are the second check." 🌟 Stella: "Item 6 takes 5 minutes and tells you exactly what to do tomorrow morning. START THERE." 🌙 *Luna: notebook already has all 10 items listed. Checked off.*

> ***For any questions or clarifications, consult the Transparency Blog or reach out via Discord or of DOC 8***
